Welcome to the 2024 Collection

Whether you are a lifelong enthusiast, owner, or breeder of Lipizzans, or just now learning about the breed, we are excited to share our Lipizzan Stallion Guide with you.

Lipizzan horses represent over 400 years of select breeding for beauty, nobility, and a rare combination of courage, strength, ability, temperament, and intelligence. Many people know of the Lipizzan through the work of the Spanish Riding School of Vienna, Austria, where Lipizzan stallions are meticulously trained in classical dressage and prepared for a lifetime of performances, the highest levels of which include the “Airs Above the Ground.” But what most people do not know is that Lipizzans excel in many equestrian disciplines, including competing at international levels in dressage, driving, and working equitation.

Beyond their competitive strengths, what many Lipizzan owners treasure the most is the breed’s loyalty and willingness to form a partnership with their rider/handler regardless of discipline. Whether it is trail riding, search and rescue, liberty work, mounted archery, or even working cattle, it is clear that Lipizzans are both willing and well-suited for a lifetime of adventures.

The Lipizzan

The modern Lipizzan has proven to be an extremely versatile and athletic horse, excelling in many disciplines, including dressage, driving, western, and trail, as well as being a noble family companion.

The Lipizzan is one of the oldest breeds of horse in Europe. The original breeding farm, Lipizza, was created in 1580 in what was at that time part of the Austrian Empire (now the country of Slovenia). Lipizzan horses have been selectively bred for strength, hardiness, temperament, endurance, and longevity, whose documented bloodlines are traceable from the first pedigrees that date from the 1700s. The desire for a powerful and agile horse, to be used for military purposes as well as for the noble families in Europe, began the breeding that led to the modern Lipizzan of today.

Lipizzans have been selectively bred for over 400 years. A purebred Lipizzan can trace all lines of their pedigree back to internationally recognized founding stallions (8 total) and mares (67 total, representing Classical, Croatian, Hungarian and Romanian mare families). The Lipizzan breed has been the subject of genetic studies in the European Union and in North America. These studies have shown that the breed has healthy genetic diversity and that even though it is a rare breed based on numbers, careful breeding practices have avoided inbreeding concerns. The long history of careful and selective breeding of Lipizzans has resulted in a breed known for being healthy and hardy, with many individuals happily working into their 20s and living into their 30s.

As of January 2021, there are fewer than 1,000 purebred Lipizzans in North America. Individuals may be found in a range of heights from those that meet Pony standards to those that are over 16 hands, however the typical height is around 15.1 hands. Most commonly gray, the colors bay, black, chestnut, and buckskin are still present in the Lipizzan breed and compliment this baroque-type horse known for being sturdy, strong, balanced, elegant, and compact.

The United States Lipizzan Federation

Preserve, Protect, Promote

Join the USLF Today!

www.uslipizzan.org

The United States Lipizzan Federation (USLF) is a non-profit organization that actively works to preserve, protect, and promote the Lipizzan breed throughout North America. We have a vibrant and active membership that includes breeders, owners, and Lipizzan enthusiasts. A few of our benefits and initiatives include a variety of member award and participation programs, annual membership meeting, quarterly magazine, ongoing population studies, genetic research projects, and breeder education programs. The USLF serves both as a registry, carrying out critical functions related to tracking of breeding, genetics, and horse evaluations, and also as a community, offering unique platforms for members to engage with each other. We welcome conversations with individuals wishing to learn more about Lipizzans. We are truly committed to being partners in the larger equestrian community and hope you will take the time to learn more about the Lipizzan breed.

The Purpose Of This Guide

The 2024 USLF Lipizzan Stallion Guide:

As part of our commitment to protect, promote, and preserve the Lipizzan breed, the USLF presents the 2024 Lipizzan Stallion Guide. The USLF Lipizzan Stallion Guide showcases USLF registered stallions owned by current USLF members, as well as stallions with frozen semen available for import through USLF member agents. The goal of this publication is to support Lipizzan breeders by helping to raise awareness of Lipizzan stallions available in North America for the 2024 breeding season. We are committed to helping breeders and prospective owners, and strongly believe education about all potential breeding options is important. But please note, participation in this guide is a voluntary advertisement for stallion owners and, as such, this list is not representative of the full breeding herd.

If you have a horse that you would like listed in future editions of the guide, please contact us at USLFoffice@gmail.com.

USLF Stud Book:

USLF offers two different resources for breeders and owners, the USLF Lipizzan Stallion Guide and USLF Stud Book. The USLF Lipizzan Stallion Guide is a directory of Lipizzan stallions currently available for breeding, based on information submitted by owners or agents. The USLF Stud Book is a reference publication available through the USLF website that presents information on all North American Purebred Lipizzans (stallions and mares) who have at least one USLF-registered foal born after 1994. For each horse listed, a complete five-generation pedigree and known offspring list is provided.

Disclaimer: All information in the United States Lipizzan Federation (USLF) Lipizzan Stallion Guide is provided as a courtesy. All stallion-specific information has been submitted by the stallion owner or agent and may be subject to change. This guide does not represent all viable Lipizzan stallions. Any breeding contracts are strictly between interested parties. Equine viral arteritis (EVA) status is not verified by the USLF and should not be construed as final proof of status. The USLF does not endorse any specific stallion and is not responsible for the content of any advertisements in this publication

Approved USLF, LANA, & AWR!

This beloved Grand Prix dressage stallion won 25 National Grand Championships, eight National Reserve Championships, 35 Regional Championship Awards and over 100 first-place awards. We are so pleased to have located and acquired his frozen semen bank, once thought to be lost to the breed. Conversano II Aloha II:

- *Excelled in dressage
- *Exhibited side saddle
- *Successfully competed in driven dressage
- *Passes on his wonderful character
- *Is heterozygous gray so can have colored offspring.

4/28/1976 - Tempel Farms

106 Pluto III Platana

6/19/1966 - Tempel Farms

48 Bellorna

4/3/1961 - Tempel Farms

Conversano Belamilana has won over many hearts at his home farm, as a mighty and impressive stallion. His sire, 499 Conversano Barbarina, was imported from the Spanish Riding School and was an airs stallion who could perform the courbette. Belamilana himself also has good ability to gather and sit or lift. He has the ideal upwards bounding canter that we would like to see in the Lipizzan breed - Klemen Turk even called him back for a second viewing and demonstration of the ideal canter after the breed evaluation was done in 2018. His strongest gaits are the walk and canter and received an approval score of 87% from Dr. Jaromir Ouhlehla in 2008.

Conversano Ivey

		362 Rexana 5/11/1974 - Tempel Farms
		Pluto IV Martina 5/31/1988 - Tempel Farms
		Imperia 8/17/1983 - Starmount Stables

An elegant stallion with striking presence and gentle temperament. C. Ivey is an excellent example of the classic airs-type Lipizzan. He is a powerful but comfortable ride with immense talent for upper-level dressage and driving. He is an exceptional driving horse with powerful extended gaits in harness as well as athleticism for obstacles. He is also a brilliant long-rein and in-hand exhibitionist, as well as a quiet sidesaddle and trail mount. He is very eager to please and sensitive to the rider's aids but very quiet and gentle. He is not spooky in harness or under saddle, making him a dependable and quiet trail horse, and he is very affectionate and loving toward people. He produces very classical foals with noblesse, impressive topline, exceptional movement, and loving temperaments.

Conversano Ulyss

Height: 14.3 hh Date of Birth: 04/07/2016

Conversano XXIX-47 x Neapolitano XXIX-34

		Alicia 3 1966 - Roger Bellon
		73 Siglavy Egeria 1962 - Piber
		56 Sarda 1956 - Piber

226 Favory Naussica “Maestro” is a classically bred elite Lipizzaner stallion who spent much of his breeding career in Australia and New Zealand. Many of his Southern hemisphere offspring have been accredited elite themselves, while so far in the USA F. Naussica’s offspring have received praiseworthy remarks from an LIF accredited judge as they mature to official judging age.

F. Naussica offers an “old bloodlines” cross for the United States, and has an engaging, intelligent, friendly temperament. He has a natural athleticism, loves his work, and is eager to please. While on lease to Tempel Lipizzans, he practiced the levade, both mounted and in hand. His offspring take on his desirable temperament, personable nature, and many of his classical conformational features.

Frozen and cooled semen are on offer. Please contact me with any questions or for further information.

		30 Mima 2/17/1983 - Piber
		Maestoso II Ambrosia 4/15/1993 - White Horse Vale
		Odetta 5/19/1993 - White Horse Vale

Favory Onikita is a classic type Lipizzan, with a quiet temperament as mellow as they come. He was approved for breeding in 2023 with scores that reflect his very good hindquarters and gaits. As a dressage mount he is lovely to ride with super sized strides. "Favi" has significant bone set on top of beautifully large and strong hooves. He has a temperament suitable for equestrians of all levels of experience. His offspring to date appear to be developing to reasonable height.

		Maestoso Canada 6/10/1992 - Whispers Lipizzans
	Sonata 4/5/1995 - Melody Hill Lipizzans	Melodina 4/18/1980 - Josef Vogt

Favory Santana is a true classic type, approved for breeding in 2023. His evaluation yielded many marks reflecting his very good noble harmonious form. His strongest points are his beautiful neck, back, and hindquarters. He has very good gaits with nice suspension and a workman-like attitude. This stallion would be an excellent choice for any breeders looking to produce a more classic type with larger mares.

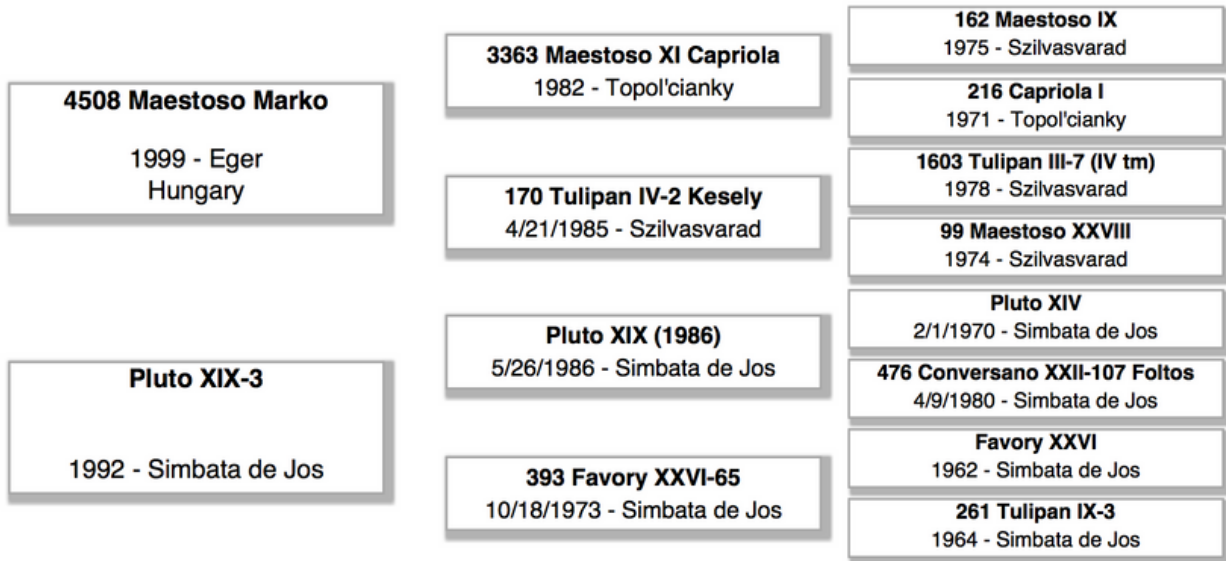

5599 Maestoso Mefiszto

Maestoso Bresciana is a promising young stallion with excellent gaits and a loving and friendly temperament. He has a particularly phenomenal walk and very large, expressive gaits that are comfortable to ride, and he has been very trainable with a great mind, much like his sire, Maestoso Orcia (M. XXIX-32 x Orcia). He carries rare classical Italian genetics from his sire's side and is sure to be a valuable asset to the Lipizzan population in the US. He will be good to add size and substance to a smaller mare while also passing on brilliant gaits.

		162 Primavera 5/4/1969 - Tempel Farms

Maestoso Primablanca II is an expressive, tall stallion with an impeccable temperament and beautiful gaits. He is a "gentle giant" for a Lipizzan without missing out on many of the classic Lipizzan qualities, such as great bone and a noble head. He has produced a few cross-bred foals from various breeds that were absolutely breathtaking. He adds height and expressive gaits to his foals without taking away from bone and substance, so he will be good to cross to smaller, more delicate mares.

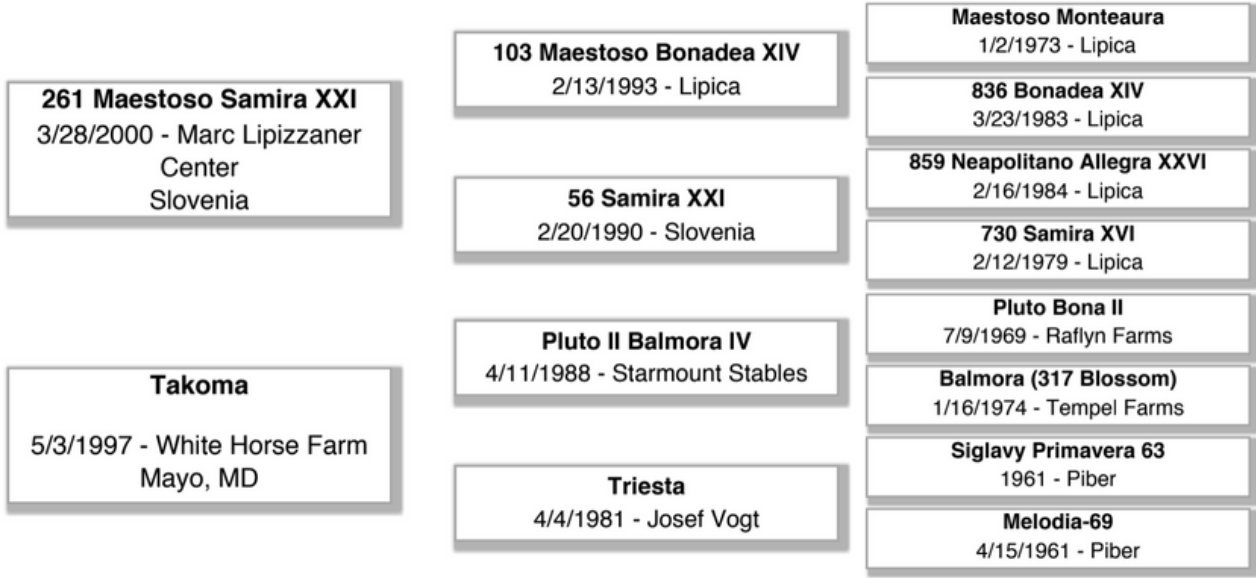

Maestoso Takoma

Height: 14.3 hh Date of Birth: 6/15/2010

261 Maestoso Samira XXI x Takoma

Standing at:	Touchstone Acres Rowland, NC

Maestoso Takoma is by imported Lipizzan 261 Maestoso Samira XXI (his only son) out of Takoma (Pluto II Balmora IV x Triesta). Touchstone Acres retained breeding rights when he was sold. He exhibits pure gaits and natural collection ability. His work ethic is impeccable, always desiring to please his rider. At his first show/first time off farm, he placed 4th.

His sire was approved in Slovenia and was best foal & best young stallion in Slovenia. His dam was approved for breeding by Dr. Oulehla, former director of Austrian Lipizzaner stud farm for the SRS. His sire's top bloodlines include a 1984 Olympics stallion; champion mare in Slovenian Breeders Association; and Elite stallions at Stud Lipica. Bottom bloodlines include noted riding stallion Pluto Bona; movie star Pluto Calcedona; well-known Piber/SRS bloodlines. He is GG for the gray factor.

Dosing Pricing: \$750 two doses, \$425 one dose

 Standing at: St. Cloud Ranch Lipizzans
 Creswell, OR

Maestoso Troja represents classic SRS/Piber bloodlines through their modern breeding program. During the 2014 USLF breed evaluations Dr. Yvonne Peeters gave him an overall score of 80% and a high mark of 9.5 for Breed Type.

Defining features include a kind and willing nature, a beautiful eye, strength and substance (20 cm cannon bones). These compliment his natural balance and athleticism. Maestoso Troja has a well-balanced canter and a trot with lots of suspension.

Due to a very limited supply of frozen semen, mares must be a well-suited match and owners will be asked to propose a method of breeding that conserves remaining frozen semen.

Standing at:	Across The Diagonal Farm Rutherfordton, NC

Born in 1997 at Dalnic Stud in Transylvania, Romania. Maestoso XLIV-17 boasts an LIF approved pedigree. His sire, Maestoso XLIV was the main stud at Dalnix and was pictured in the most famous German book on Lipizzans, "Auf Den Spuren Der Lipizzaners," by Heinz Nurnberg. According to Atjan Hop, the General Secretary of the LIF and foremost pedigree expert, "He is descended from - in my opinion - the best Masestoso branch there is at this moment. His sire, M. XLIV, delivers only good progeny; producing bone and breathtaking movement in the offspring. The branch leads back to the Slovakian stud Topolcianky, which is one of the heirs of the Imperial breed of the former court stud Lipizza." Maestoso XLVI-17's maternal family goes back to 49 Hidas. 49 Hidas was an original Lipizzan mare born in 1909 at the Stud of Count Andrassy in Hungary. Dr. Laszlo Kadar, veterinarian and breed at Dalnic Stud Farm reported that Stoso's Dam, 20 Conversano XXV-25 was the most successful broodmare in the country.

Accomplishments: USDF Vintage cup Prix St. George Champion. Top placings against USET/FEI horses and riders. "Stoso" had a majestic presence, outstanding movement and perfect self-carriage. 2023 foals are outstanding in conformation and movement. Please visit Jrdressage.com/breeding for more information and photos of "Stoso" and his offspring.

Marcus is just getting started, he's done groundwork, liberty training, and some ground driving. This spring, he will be learning to drive with some knowledgeable professionals near Great Falls MT. They will also be working with him on in hand breeding. We're very excited about getting him into a future inspection. We also have plans for starting a career in dressage and combined training. He's doing quite well free jumping and seems to enjoy it!

Neapolitano Samira VI was imported in utero from Slovenia by Touchstone Acres. He carries some of the best bloodlines of Lipica and Slovenia. His sire is the Elite stallion at Stud Lipica, 857 Neapolitano Wera XI. His dam, 302 Samira VI, is out of Elite mare 056 Samira XXI, and by Elite stallion 54 Siglavy Gaeta II. "Shaman" has a big step, powerful movement, nice, suspended trot and very good work ethic. He always looks to his rider for the next cue. In his first show at Evergreen Farm, he scored 73.44%, 1st place and High Point of the day. He is GG for gray. Shaman's first offspring was foaled in 2012 in British Colombia.

Dosing Prices: \$950 two doses, \$525 one dose

Neapolitano XXIX-18 was a 15.3h black stallion foaled at the National Stud Sambata de Jos, Romania. He stood at Thafalonie Stables in The Netherlands and his DNA is on file with the USLF, so his foals can be registered in the USA. He competed to Grand Prix with his owner Tamar Gotthjalpsen, starred in the movie Penny's Shadow, and toured with Apassionata. "Napje" is known for his excellent temperament.

He has sired 4 foals in the USA from frozen semen, 2 fillies and 2 colts.

		79 Oda 5/15/1961 - Piber

In 1999 Pluto Gisella scored an impressive 87.5% - the highest score of that year's evaluation. When Dr. Oulehla returned in 2001, the then 2-year-old Pluto Gisella bettered his previous effort with a score of 90% - the highest ever given to a North American Lipizzan at that time. Since it is quite rare for a more mature horse to receive a score higher than its foal score, we were elated. But the pressure was on when Dr. Oulehla returned for the 2003 evaluations. Could the 4-year-old Pluto Gisella hang on to such a high score? Hang on he did and bettered it yet again - achieving the incredible score of 93.5%! Dr. Oulehla officially penned on his score sheet, "Best stallion in N. America."

Available fresh cooled on-site direct insemination only. You board your mare here and I do all the work. \$20/day, \$600/month, plus vet and blacksmith.

Pluto Matina ("Frodo") is a lovely 19-year-old gray Lipizzan Stallion, currently schooling fourth level dressage. Frodo stands 15.2 hands at the withers, with a very nice neck and shoulder slope and overall excellent conformation. He has a great brain and personality with a beautiful face and expressive eyes. Frodo has a very classic Lipizzan presence with big, comfortable movements. He received an 81% in his evaluation by Dr. Oulehla in Kernersville, WV, which consisted of several 8's and 9's. Frodo has a great work ethic and is a gentleman on the ground, under saddle, as well as in the breeding shed. Frodo's first foal, Devona, a lovely 2007 Lipizzan filly, received a 72% in the Dressage at Devon Lipizzan Class from Judge Hilda Gurney. Devona, too, received all 8's and 9's when evaluated by Dr. Oulehla. Similarly, Frodo's 2017 filly, Charlotka, and his 2018 colt, Pluto Anatinza, also scored remarkably well in the Dressage at Devon Lipizzan Class, earning 74.85% under Judge Anne Gibbons and 71.6% under Janet Foy, respectively.

Pluto Matina's bloodlines include the legendary Pluto Calcedona, owned and bred by Raflyn Farms, which was also a significant importer of Lipizzans in the 1950s. In 1976, at the age of 15, Pluto Calcedona made his silver screen debut in the Paul Neuman film, Buffalo Bill and the Indians, as Buffalo Bill's horse. Many of the foals from this bloodline have competed at the Grand Prix level and/or have performed in various Lipizzan exhibitions, including the "Airs Above the Ground". Pluto Matina's bloodlines would complement the bloodlines of horses bred by Tempel Farms.

Other Resources

USLF Stud Book:

The USLF Stud Book is a reference publication available through the USLF website that presents information on all North American Purebred Lipizzans (stallions and mares) who have at least one USLF-registered foal born after 1994. For each horse listed a complete five-generation pedigree and known offspring list is provided.

USLF Breeders Directory:

The USLF Breeders Directory is an online resource list of individuals and farms and their contact information. If you are thinking about purchasing a Lipizzan, contacting these breeders is a great place to start as many are offering young stock and/or started horses for sale. These breeders have corresponding annual advertising packages in our USLF News.

USLF Lipizzan News:

A USLF quarterly magazine dedicated to the Lipizzan breed and to Lipizzan enthusiasts. Each issue features a variety of informative articles on Lipizzans, including historical events, training, health, reports on training clinics, and other submissions from our members. You will also find organizational news as well as information on upcoming events. If you are interested in stallion services or purchasing a Lipizzan, you may find that special horse from our advertisers.

United States Lipizzan Federation Facebook Page:

Dedicated to outreach, this page highlights key news, events, and happenings within the USLF. Advertising is limited to USLF promotional activities, but individuals are often featured in recognition pieces related to our USLF programs such as Laurels and Awards.
