Welcome to the 2023 Collection

Whether you're a lifelong enthusiast, owner, or breeder of Lipizzans, or just now learning about the breed, we are excited to share our Lipizzan Stallion Guide with you.

Lipizzan horses represent over 400 years of select breeding for beauty, nobility, and a rare combination of courage, strength, ability, temperament, and intelligence. Many people know of the Lipizzan through the work of the Spanish Riding School of Vienna, Austria, where Lipizzan stallions are meticulously trained in classical dressage and prepared for a lifetime of performances, the highest levels of which include the “Airs Above the Ground.” But what most people don't know is that Lipizzans excel in many equestrian disciplines, including competing at international levels in dressage, driving, and working equitation.

Beyond their competitive strengths, what many Lipizzan owners treasure the most is the breed's loyalty and willingness to form a partnership with their rider/handler regardless of discipline. Whether it is trail riding, search and rescue, liberty work, mounted archery, or even working cattle, it's clear Lipizzans are both willing and well-suited for a lifetime of adventures.

The Lipizzan

The modern Lipizzan has proven to be an extremely versatile and athletic horse, excelling in many disciplines, including dressage, driving, western, and trail, as well as being a noble family companion.

The Lipizzan is one of the oldest breeds of horse in Europe. The original breeding farm, Lipizza, was created in 1580 in what was at that time part of the Austrian Empire (now the country of Slovenia). Lipizzan horses have been selectively bred for strength, hardiness, temperament, endurance, and longevity, whose documented bloodlines are traceable from the first pedigrees that date from the 1700s. The desire for a powerful and agile horse to be used for military purposes as well as for the noble families in Europe began the breeding that led to the modern Lipizzan of today.

Lipizzans have been selectively bred for over 400 years. A purebred Lipizzan can trace all lines of their pedigree back to internationally-recognized founding stallions (8 total) and mares (67 total, representing Classical, Croatian, Hungarian and Romanian mare families). The Lipizzan breed has been the subject of genetic studies in the European Union and in North America. These studies have shown that the breed has healthy genetic diversity and that even though it is a rare breed based on numbers, careful breeding practices have avoided in-breeding concerns. The long history of careful and selective breeding of Lipizzans has resulted in a breed known for being healthy and hardy, with many individuals happily working into their 20s and living into their 30s.

As of January 2021, there are fewer than 1,000 purebred Lipizzans in North America. Individuals may be found in a range of heights from those that meet Pony standards to those that are over 16 hands, however the typical height is around 15.1 hands. Most commonly gray, the colors bay, black, chestnut and buckskin are still present in the Lipizzan breed and compliment this baroque-type horse known for being sturdy, strong, balanced, elegant, and compact.

The United States Lipizzan Federation

Preserve, Protect, Promote

Join the USLF Today!

www.uslipizzan.org

The United States Lipizzan Federation (USLF) is a non-profit organization that actively works to preserve, protect, and promote the Lipizzan breed throughout North America. We have a vibrant and active membership that includes breeders, owners, and Lipizzan enthusiasts. A few of our benefits and initiatives include a variety of member award and participation programs, annual membership meeting, quarterly magazine, ongoing population studies, genetic research projects, and breeder education programs. The USLF serves both as a registry, carrying out critical functions related to tracking of breeding, genetics, and horse evaluations, and also as a community, offering unique platforms for members to engage with each other. We welcome conversations with individuals wishing to learn more about Lipizzans. We are truly committed to being partners in the larger equestrian community and hope you will take the time to learn more about the Lipizzan breed.

The Purpose Of This Guide

The 2023 USLF Lipizzan Stallion Guide:

As part of our commitment to protect, promote, and preserve the Lipizzan breed, the USLF presents the 2023 Lipizzan Stallion Guide. The USLF Lipizzan Stallion Guide showcases USLF registered stallions owned by current USLF members, as well as stallions with frozen semen available for import through USLF member agents. The goal of this publication is to support Lipizzan breeders by helping to raise awareness of Lipizzan stallions available in North America for the 2023 breeding season. We are committed to helping breeders and prospective owners, and strongly believe education about all potential breeding options is important. But please note, participating in this guide is voluntary advertisement for stallion owners and as such this list is not representative of the full breeding herd.

If you have a horse that you would like listed in future editions of the guide, please contact us at USLFoffice@gmail.com.

USLF Stud Book:

USLF offers two different resources for breeders and owners, the USLF Lipizzan Stallion Guide and USLF Stud Book. The USLF Lipizzan Stallion Guide is a directory of Lipizzan stallions currently available for breeding, based on information submitted by owners or agents. The USLF Stud Book is a reference publication available through the USLF website that presents information on all North American Purebred Lipizzans (stallions and mares) who have at least one USLF-registered foal born after 1994. For each horse listed, a complete five-generation pedigree and known offspring list is provided.

Disclaimer: All information in the United States Lipizzan Federation (USLF) Lipizzan Stallion Guide is provided as a courtesy. All stallion-specific information has been submitted by the stallion owner or agent and may be subject to change. This guide does not represent all viable Lipizzan stallions. Any breeding contracts are strictly between interested parties. Equine viral arteritis (EVA) status is not verified by the USLF and should not be construed as final proof of status. The USLF does not endorse any specific stallion and is not responsible for the content of any advertisements in this publication

124 Neapolitano VI-27

5/10/1965 - Topol'cianky

"Art" makes an excellent choice as a sire to diversify our North American gene pool of Lipizzans. He stands tall at 15.3 hands, has three very correct gaits, and is a steady ride from day to day. He has a lovely large, kind eye set upon a beautiful head. His correct and straight legs would be a compliment to any mare, as well as his large yet well proportioned body.

Conversano Antiqua

4/14/1967 - Tempel Farms

434 Belamira

4/28/1976 - Tempel Farms

Conversano Belamilana has won over many hearts at his home farm, as a mighty and impressive stallion. His sire, 499 Conversano Barbarina, was imported from the Spanish Riding School and was an airs stallion who could perform the courbette. Belamilana himself also has good ability to gather and sit or lift. He has the ideal upwards bounding canter that we would like to see in the Lipizzan breed - Klemen Turk even called him back for a second viewing and demonstration of the ideal canter after the breed evaluation was done in 2018. His strongest gaits are the walk and canter and received an approval score of 87% from Dr. Jaromir Ouhlehla in 2008.

10/27/1971 - Simbata de Jos

Ulyss is the only known purebred Lipizzan of roan color in North America and, given he is out of imported Romanian parents, his bloodlines are compatible with most mares. We are excited to offer this stallion for the first time to select mares by frozen semen.

Breeding and raising good citizens that bring joy to all types of riders from the weekend trail rider to the top competitor.

Custom breeding combinations available, young foals, occasionally started horses, and stallion at stud.

Our breeding program works consistently to breed for temperament first, conformation and performance second. Our goal is that our horses could go all the way with a top trainer or fall in love with and take care of the adult or child amateur.

Reach out to see what this year's breeding may have available.

226 Favory Naussica "Maestro" is a classically bred elite Lipizzaner stallion. He spent much of his esteemed breeding career in the Australasia region producing quality offspring, many of which have been accredited elite themselves. In the USA F. Naussica's 2020 and 2021 foals have all received praiseworthy remarks from an LIF accredited judge. He is an excellent "old bloodlines" cross for our United States Lipizzans.

F. Naussica has an engaging, intelligent, friendly temperament that is coupled with a natural athleticism, confidence, and true eagerness for work. He practices the levade, both mounted and in hand, and is ridden at fourth level. Offspring often take on his desirable temperament, personable nature, and many of his classical features.

Visit F. Naussica's webpage for more information and pictures.

Favory Allura (AKA "Lou") is a USLF/LIF approved purebred Lipizzan breeding stallion, Favory Allura is the son of Grand Prix stallion 760 Favory IV Delta. This gorgeous guy was trained for the "capriole" and the anchor to the "pas de trois" in the Tempel Farm public exhibitions in Illinois for 8.5 years before coming to our farm here in Georgia. While Lou is breathtakingly gorgeous, his best trait by far is his temperament. He's a conformationally correct, tall (1 cm shy of 15.3), uphill horse with great suspension in his movements, great ride-ability, and a highly trainable personality.

Favory Allura is available for breeding to approved mares via AI with fresh cooled shipped semen.

		Maestoso Gradita-40 1/26/1967 - Piber
		Amata-44 1/24/1967 - Piber

Favory Canada is a powerful stallion that has clearly proven himself to the dressage world by winning many regional championships and placing three times at US Dressage National Championships. He is 15 hands and has a very strong square build, earning many 9's in his evaluations as well as a 10 for Breeding type! He has been shown extensively by both a professional and an amateur through FEI with many USDF Year End and All-Breeds awards including Reserve National Champion First Level Freestyle while competing against all breeds showing in the US.

Favory Canada is a fairly sensitive stallion. Mississippi View Farm would recommend him for sensible mares that need more forward movement and power in their gaits and improvement in their overall topline and hindquarters. His foal crops have shown outstanding movement, with very straight legs, strong backs and loins.

Favory Onikita is a classic type Lipizzan, with a quiet temperament as mellow as they come, and super trainable. His gaits are lovely to ride with super-sized strides. His first offspring is due in 2022, and it is with great anticipation that we will see his quality stamped into the next generation. Favory has significant bone, a short and very strong loin connection, large and strong hooves, and a temperament that is suitable for equestrians of all levels of experience.

Melodina

4/18/1980 - Josef Vogt

Favory Santana, aka 'Ares', has so many trademarks of a good Lipizzan. Large and round feet, big dark eyes, a long well-developed wither that is higher than the croup. His temperament is very workmanlike. He is always willing and accepting of new things in training, a true indicator of a good work ethic.

THE TEMPEL LIPIZZANS

65 YEARS OF LIPIZZAN BREEDING IN THE UNITED STATES

Tempel Lipizzans has invested in importing genetics from Europe for the diversity of the United States Lipizzan herd. Our focus is on temperament, trainability, health and conformation. All standing stallions are USLF/LIF breeding approved and are currently in training and shown in public exhibition. Each stallion is also used for breeding in our own herd.

		97 Alea-08 4/9/1964 - Piber
		Neapolitano Pasqua 3/16/1972 - Monterotondo
		Graziosa (1970) 1970 - Monterotondo

Imported in utero from Piber Stud and born at Tempel Farms, 920 Maestoso Gradita is a beautiful balanced and athletic 6 year old stallion. He was LIF/USLF approved (80%) for breeding with 9 for type and scored 8, 9, 9 for walk, trot, canter, respectively. Maestoso Gradita's sire Maestoso Beja performs at the Spanish Riding School in All Steps and Movements of the Classical school. Even at his young age, Maestoso Gradita seems primed to succeed in all that he does.

This stallion will be covering all of Tempel Farms mares in Spring 2023.

5599 Maestoso Mefiszto

		610 Conversano Trompeta XII 2/15/1974 - Lipica
		527 Allegra XXVI 7/31/1969 - Lipica

Maestoso Alga, available by frozen for use with ICSI procedure - "Moe" was quite a stately young stallion. He developed into an amazing athlete, with a lovely flow to his topline (including good wither), a well-set neck, 3 lovely gaits, and considerable height. Chief Rider Hausberger viewed him in person as a 3-year-old and said that he was the best Lipizzan stallion bred in the US that he had seen for himself. This stallion was a product of a combination strongly recommended by Dr. Jaromir Ouhlehla.

He was evaluated in 2018 by Klemen Turk, but as he was not yet done maturing, he advised to present him again in a couple of years.

In training, "Moe" took everything fully in stride as many do. It was as if he had read the old classic books on dressage before he was even born.

Maestoso Batrina

Height: 14.3 hh Date of Birth: 2009

Maestoso Legeny x 852 Batrina

	Conversano XXIV-20 4/18/1994 - Szilvasvarad	216 Capriola I 1971 - Topol'cianky
	738 Favory VI Brenna 5/16/1986 - Tempel Farms	1946 Conversano XXIV (XXIII-6) 1983 - Szilvasvarad
852 Batrina 5/11/2002 - Tempel Farms Old Mill Creek, IL	711 Bellanna 3/21/1985 - Tempel Farms	3 Maestoso XXIX-31 1/20/1981 - Szilvasvarad
		325 Favory IV Slana 2/16/1974 - Tempel Farms
		579 Brenna 2/10/1980 - Tempel Farms
		118 Siglavy III Roxana 4/14/1967 - Tempel Farms
		434 Belamira 4/28/1976 - Tempel Farms

Strong, spirited and very trainable, Maestoso Batrina has the potential to excel in any and all directions in Tempel Lipizzans training program. His athleticism and smarts have lent themselves nicely to the most difficult (to train) Airs Above the Ground movement: the courbette. Concurrently, he is enthusiastically schooling all PSG movements; he loves to learn.

Maestoso Batrina scored an 83% in his breeding evaluation receiving a 9 for breed type and a perfect 10 for his gorgeous head.

4/4/1981 - Josef Vogt

Maestoso Takoma is by imported Lipizzan 261 Maestoso Samira XXI (his only son) out of Takoma (Pluto II Balmora IV x Triesta.) Touchstone Acres retained breeding rights when he was sold. He exhibits pure gaits and natural collection ability. His work ethic is impeccable, always desiring to please his rider. At his first show/first time off farm, he placed 4th.

His sire was approved in Slovenia and was best foal & best young stallion in Slovenia. His dam was approved for breeding by Dr. Oulehla, former director of Austrian Lipizzaner stud farm for the SRS. His sire's top bloodlines include a 1984 Olympics stallion; champion mare in Slovenian Breeders Association; and Elite stallions at Stud Lipica. Bottom bloodlines include noted riding stallion Pluto Bona; movie star Pluto Calcedona; well-known Piber/SRS bloodlines. He is GG for the gray factor.

		62 Malina 3/13/1988 - Piber
		360 Maestoso Perla 5/1/1970 - Piber
		52 Toscana 1975 - Piber

Maestoso Troja represents classic SRS/Piber bloodlines through their modern breeding program. During the 2014 USLF breed evaluations Dr. Yvonne Peeters gave him an overall score of 80% and a high mark of 9.5 for Breed Type.

Defining features include a kind and willing nature, a beautiful eye, strength and substance (20 cm cannon bones). These compliment his natural balance and athleticism. Maestoso Troja has a well-balanced canter and a trot with lots of suspension.

Due to a very limited supply of frozen semen, mares must be a well-suited match and owners will be asked to propose a method of breeding that conserves remaining frozen semen.

		15 Favory XXII-6 1950 - Simbata de Jos

Born in 1997 at Dalnic Stud in Transylvania, Romania. Maestoso XLIV-17 boasts an LIF approved pedigree. His sire, Maestoso XLIV was the main stud at Dalnix and was pictured in the most famous German book on Lipizzans, "Auf Den Spuren Der Lipizzaners," by Heinz Nurnberg. According to Atjan Hop, the General Secretary of the LIF and foremost pedigree expert, "He is descended from - in my opinion - the best Masestoso branch there is at this moment. His sire, M. XLIV, delivers only good progeny; producing bone and breathtaking movement in the offspring. The branch leads back to the Slovakian stud Topolcianky, which is one of the heirs of the Imperial breed of the former court stud Lipizza." Maestoso XLVI-17's maternal family goes back to 49 Hidas. 49 Hidas was an original Lipizzan mare born in 1909 at the Stud of Count Andrassy in Hungary. Dr. Laszlo Kadar, veterinarian and breed at Dalnic Stud Farm reported that Stoso's Dam, 20 Conversano XXV-25 was the most successful broodmare in the country.

Accomplishments: USDF Vintage cup Prix St. George Champion. Top placings against USET/FEI horses and riders. "Stoso" had a majestic presence, outstanding movement and perfect self-carriage. For more information go to jrdressage.com/breeding.

	56 Samira XXI 2/20/1990 - Slovenia	730 Samira XVI 2/12/1979 - Lipica

Neapolitano Samira VI was imported in utero from Slovenia by Touchstone Acres. He carries some of the best bloodlines of Lipica and Slovenia. His sire is the Elite stallion at Stud Lipica, 857 Neapolitano Wera XI. His dam, 302 Samira VI, is out of Elite mare 056 Samira XXI, and by Elite stallion 54 Siglavy Gaeta II. "Shaman" has a big step, powerful movement, nice suspended trot and very good work ethic. He always looks to his rider for the next cue. In his first show at Evergreen Farm he scored 73.44%, 1st place and High Point of the day. He is GG for gray. Shaman's first offspring was foaled in 2012 in British Colombia.

Neapolitano XXIX-18 was a 15.3h black stallion foaled at the National Stud Sambata de Jos, Romania. He stood at Thafalonie Stables in The Netherlands and his DNA is on file with the USLF, so his foals can be registered in the USA. He competed to Grand Prix with his owner Tamar Gotthjalpsen, starred in the movie Penny's Shadow, and toured with Apassionata. "Napje" is known for his excellent temperament.

He has sired 4 foals in the USA from frozen semen, 2 fillies and 2 colts.

Price is for purebred-Lipizzan Limited LFG but contact agent Touchstone Acres for part-bred and per-dose straw prices.

A Grand Prix stallion who moves like a dream, Pluto VII Andorella comes from Tempel Lipizzans bloodlines and received an 83% in his USLF evaluation with perfect 10 for gaits.

Active and successful in competition, he received USDF all-breeds award for Prix St. Georges, I1, I2, Grand Prix and Grand Prix Musical Freestyle. Pluto VII Andorella is rideable, sound and has a solid temperament. He boasts three beautiful foals, one colt and two fillies, all of them with his lovely gaits.

		79 Oda 5/15/1961 - Piber

In 1999 Pluto Gisella scored an impressive 87.5% - the highest score of that year's evaluation. When Dr. Oulehla returned in 2001 the then 2-year-old Pluto Gisella bettered his previous effort with a score of 90% - the highest ever given to a North American Lipizzan at that time. Since it is quite rare for a more mature horse to receive a score higher than its foal score, we were elated. But the pressure was on when Dr. Oulehla returned for the 2003 evaluations. Could the 4-year-old Pluto Gisella hang on to such a high score? Hang on he did and bettered it yet again - achieving the incredible score of 93.5%! Dr. Oulehla officially penned on his score sheet, "Best stallion in N. America."

Available fresh cooled on-site direct insemination only. You board your mare here and I do all the work. \$20/day, \$600/month, plus vet and blacksmith.

Pluto Matina ("Frodo") is a lovely 19-year-old gray Lipizzan Stallion, currently schooling fourth level dressage. Frodo stands 15.2 hands at the withers, with a very nice neck and shoulder slope and overall excellent conformation. He has a great brain and personality with a beautiful face and expressive eyes. Frodo has a very classic Lipizzan presence with big, comfortable movements. He received an 81% in his evaluation by Dr. Oulehla in Kernersville, WV, which consisted of several 8's and 9's. Frodo has a great work ethic and is a gentleman on the ground, under saddle, as well as in the breeding shed. Frodo's first foal, Devona, a lovely 2007 Lipizzan filly, received a 72% in the Dressage at Devon Lipizzan Class from Judge Hilda Gurney. Devona, too, received all 8's and 9's when evaluated by Dr. Oulehla. Similarly, Frodo's 2017 filly, Charlotka, and his 2018 colt, Pluto Anatinza, also scored remarkably well in the Dressage at Devon Lipizzan Class, earning 74.85% under Judge Anne Gribbons and 71.6% under Janet Foy, respectively.

BREEDING:

Pluto Matina's bloodlines include the legendary Pluto Calcedona, owned and bred by Raflyn Farms, which was also a significant importer of Lipizzans in the 1950s. In 1976, at the age of 15, Pluto Calcedona made his silver screen debut in the Paul Neuman film, Buffalo Bill and the Indians, as Buffalo Bill's horse. Many of the foals from this bloodline have competed at the Grand Prix level and/or have performed in various Lipizzan exhibitions, including the "Airs Above the Ground". Pluto Matina's bloodlines would complement the bloodlines of horses bred by Tempel Farms.

8 Pompea

1982 - Monterotondo

"Pomp" makes a nice choice for breeders seeking a larger sire, with lines that are not currently in circulation among the North American gene pool. He has served as an amazing schoolmaster in a lesson and training program for a number of years. His pedigree is half Piber and half Monterotondo. He has quite significant bone, very large yet compact hooves, longevity, soundness, and received marks reflecting his strengths in the hindquarters, hind legs and forequarters in breed evaluations. His canter is an absolute dream to ride. He has one offspring to date, a filly, who displays a very strong resemblance to his type and movement.

About: Pluto Virtuosa-47, affectionately known as "V" is a barn favorite with excellent ground manners and an easy, uncomplicated way of going under saddle. Shown through 4th level in venues as large as Global Dressage Festival in Wellington, FL, V is now schooling Prix St George and has an excellent passage and piaffe.

Breeding: Imported from Piber Stud in Austria, his Spanish Riding School bloodlines and correct conformation earned him a score of a perfect 10 on all three gaits. With an outstanding total score of 95% in the stallion evaluation from Dr. Jaromir Oulehla, former director of the SRS breeding program. "V" has three correct gaits and a very trainable personality which he passes on to his offspring. Available at stud via fresh cooled semen and frozen semen.

Other Resources

USLF Stud Book:

The USLF Stud Book is a reference publication available through the USLF website that presents information on all North American Purebred Lipizzans (stallions and mares) who have at least one USLF-registered foal born after 1994. For each horse listed a complete five-generation pedigree and known offspring list is provided.

USLF Breeders Directory:

The USLF Breeders Directory is an online resource list of individuals and farms and their contact information. If you are thinking about purchasing a Lipizzan, contacting these breeders is a great place to start as many are offering young stock and/or started horses for sale. These breeders have corresponding annual advertising packages in our USLF News.

USLF Lipizzan News:

A USLF quarterly magazine dedicated to the Lipizzan breed and to Lipizzan enthusiasts. Each issue features a variety of informative articles on Lipizzans, including historical events, training, health, reports on training clinics, and other submissions from our members. You will also find organizational news as well as information on upcoming events. If you are interested in stallion services or purchasing a Lipizzan, you may find that special horse from our advertisers.

United States Lipizzan Federation Facebook Page:

Dedicated to outreach, this page highlights key news, events, and happenings within the USLF. Advertising is limited to USLF promotional activities, but individuals are often featured in recognition pieces related to our USLF programs such as Laurels and Awards.
